(Please do not trust the answering machine, as I will not get the message until the next business day!)

From Sarasota, take Gulf of Mexico Dr. up Longboat Key until you reach the Chevron gas station at 6990 Gulf of Mexico Dr. It is 9.5 miles up the key and is the only gas station on the north end of Longboat.

Across the street from Chevron is a public beach access parking lot. We will meet in the beach access parking lot. I always arrive a few minutes early and have my camera set up on a tripod beside my car, I should be easy to spot.

You do not need to be early, as we have set the time of your session for the best natural light. You, of course, do not want to be late either, as the sun doesn't wait for anyone!
